

Plain Dividing Breeching Aluminium

Scope of Use / Specification Sheet

Breechings are available in controlled or uncontrolled and dividing and collecting types. Dividing Breechings are usually used at the outlet of a standpipe to divide from one water source to two. Collecting Breechings are predominately used at the back of the truck so they can have 2 water sources to help feed extra water into the pumping appliance.

FS6025

Parts List

Order Code	Description
