

Metered Standpipes

Scope of Use / Specification Sheet

Portable standpipes are available in single or double head in both gunmetal and aluminium to suit all state requirements including BS750 for Western Australia.

Contractors standpipes are available in varying sizes from 25mm to 40mm with water meters if requested. Standpipes are connected into Hydrants in the road and used to draw water from the main. Hydrant road keys are also available when water has to be manually turned on from a underground valve.
